  understanding of applications, strategy and implementation of technologies for non technical

  stakeholders

TECHNICAL COURSES LIST

Hands on Technology Programs	

Domain	Course
Artificial Intelligence & Machine Learning	
	Machine Learning for Beginners
	Machine Learning and Artificial Intelligence with Python & R
	Deep Learning with Tensorflow
	Machine Learning for Data Science
	Machine Learning with Spark & Scala
	Amazon Machine Learning for Developers (AWS Sagemaker)
	Azure Machine Learning Studio
	Machine Learning on Google Cloud
Internet Of Things	
	Internet of Things Basic
	Internet of Things Advanced
	Azure Cloud IOT
	AWS Cloud IOT
	IOT Analytics
	IOT Security
Robotic Process Automation	
	Robotic Process Automation for Business Decision Makers
	Robotic Process Automation
	Robotic Process Automation (UI Path)

TECHNICAL COURSES LIST

	Robotic Process Automation (Automation Anywhere)
	Robotic Process Automation (Blueprism)
DevOps	
	Decoding Devops (for Decision Makers)
	Devops in Depth (Covers multiple tools & Methodologies)
	Agile & Devops

	Data Science & BigData Analytics

	Apache Spark & Scala
	BigData Analytics with Hadoop
	Business Analytics with R
	Hadoop Developer
	Hadoop Administration
	Cassandra Developer
	Cassandra Administration
	MongoDB
	Apache Kafka
	MapR Developer
	MapR Admin
Cloud Computing & Virtualization	
	Cloud Computing for Managers
	Cloud Architecture
	Amazon AWS Certification and Customized Courses(Developer, Architect, Solutions, Devops, Data Engineer)
	Microsoft Azure Certification and Customized Courses (Developer, Architect, Solutions, Devops, Data Engineer)
	Google Cloud Platform (Developer, Architect, Solutions, Devops, Data Engineer)
	Pivotal Cloud Foundry Developer
	Pivotal Cloud Foundry Administration
	Openstack
	Google Cloud APIGEE
	Oracle Cloud
	Salesforce Cloud
	IBM Bluemix

TECHNICAL COURSES LIST

Business Intelligence	
	Tableau
	Qlikview
	Alteryx
	PowerBI
	Cognos
	Snowflake
	Microstrategy
	WebFocus
	Crystal Reports
Cryptocurrency & Security	
	Blockchain & Cryptocurrency Fundamentals
	Etherium
	Hyperledger
	Cloud Security & Risk
	AWS Cloud Security
	Introduction to Cyber Security
	VA/PT (Vulnerability Assessment & Penetration Testing)
	Intelligence Gathering & Threat Analysis
	Ethical Hacking
	Secure Devops
	Web Application Penetration Testing & Ethical Hacking
	Mobile Device Security & Ethical Hacking
	Implementing and Auditing Essential Security Controls
	Wireless Penetration Testing & Ethical Hacking

	Forensics & Threat Analysis Programs
	Secure Coding Java/J2EE Applications
Programming Languages	
	Core Java
	Python
	C#
	Shell
	Perl
	Ruby
	Javascript
	Swift/Objective C
	C/C++
